TRUST LAGS IN TRAINING PERSONNEL -- Sovetskaya Estoniya, No 114, 17 May 49

The Estonia "Gazlantsestroy" (Construction of Shale Gas Enterprises) Trust is scheduled to train more than 1,000 qualified workers and increase the qualifications of 350 others according to the 1949 plan. Only 43 new workers, or 5.8 percent of the plan, were trained during the first quarter. Not a single worker was trained during this time in Construction Administration No 4, in the repair and machine shop, or in the office of secondary enterprises. However there is not enough room to organize training properly.
